## Section 1: ACTIVE DUTY ACCESSIONS

### 30100. INTRODUCTION

The procedure used to establish the MCTFS computer record and add the Marine to the Marine Corps strength is the accession process. The accession of a Member's computer records is accomplished by methods outlined in this section.

### 30101. ENTRY ONTO ACTIVE DUTY

1. Officers commencing an initial period of Active Duty (AD) in the Marine Corps due to:
  - a. graduation from the U.S. Naval Academy,
  - b. effecting an interservice transfer to accept a commission in the Marine Corps, or
  - c. Naval Reserve Officers Training Corps (NROTC) members without a record of prior service are accessed at CMC and do not require a request for accession from the Reporting Unit (RU). Other prospective officers without a record of prior service (i.e., Officer Candidate Course (OCC) and Platoon Leaders Class (PLC)) are accessed through the Student Management module of UD/MIPS by the Commanding Officer (CO), Officer Candidate School (OCS), Marine Corps Combat Development Command, (MCCDC) Quantico, VA during training at OCS.
2. Marines with a current MCTFS record (i.e., AD, Individual Ready Reserve (IRR) or Selected Marine Corps Reserve (SMCR)) who will attend officer training do not require an accession.
3. Officers without a MCTFS record who are re-appointed and immediately ordered to AD require an accession message be sent to the CMC (MIF) as shown in Figure 3-1. Accession message information may be transmitted via Naval Message, Electronic Mail or Facsimile (FAX).
4. Platoon Leaders Class (PLC) lawyers are accessed into the MCTFS upon reporting to OCS. Upon successful completion of OCS, PLC lawyers are commissioned and released from active duty. Upon the posting of their release (drop) entry, they are joined to the PLC lawyer (MOBCOM) RUC 88874. Computer records remain in RUC 88874 during all periods of inactive duty. The appropriate periods of approved active duty. All other (excluding Marine reservist with prior remaining obligation) PLC candidates (ground and air) are transferred to the 30396 OCS holding upon successful completion of OCS. Candidates with prior remaining Marine Corps reserve obligation released from active duty and joined back to their appropriate SMCR or IRR RUC. All other PLC ground and air candidate's computer records remain in RUC 30396 until an INIT JOIN entry is reported by a temporary AD unit or The Basic School (TBS). An INIT JOIN entry will cause the computer record to be transferred from RUC 30396 to the temporary AD or TBS RUC. In those cases where the INIT JOIN entry fails because the Marine does not have a computer record in the CMF, submit an accession message to the CMC (MIF) per Figure 3-1.
5. All computer records for recruits are accessed at the Marine Corps Recruit Depots via the Student Management module of UD/MIPS.
6. The first AD reporting unit is required to send an accession message to CMC (MIF) as shown in Figure 3-1, for prior service personnel, both officers and enlisted, who join the Regular component from a civilian status (separated from the Marine Corps for longer than 24 hours). Use the following guidelines:
  - a. The first AD reporting unit will monitor MCTFS and will submit an INIT JOIN entry per Chapter 6, Section 1, (JOINS) once the AD record status is equal to 'H' (awaiting initial join). If after five working days, the record status 'H' has not posted in MCTFS, contact CMC (MIF).

## MCTFSPRIUM 23JUN04

b. When it is determined there is an active MCTFS record (including IRR personnel) the parent reserve unit or CG, **MOBCOM** (IMA/IRR Marines) must be contacted to report the appropriate Transfer to Active Duty (TTC 881/883). Accession message information for Marines who have re-enlisted/augmented (component code 11 only) is not required except in cases where the local MISSO has determined that no MCTFS record is resident on the MCTFS CMF. In this case use the format in Figure 3-1.

c. When an AD accession is determined to be erroneous **immediately contact the MISSO to have the record deleted.**

# MCTFSPRIUM 23JUN04

## Section 2: RESERVE ACCESSIONS

30200. ENLISTED RESERVISTS ASSIGNED TO AD (31 DAYS OR MORE) (EXCLUDE RESERVISTS ORDERED TO RECRUIT TRAINING)

1. The Reserve RU **must** report the appropriate Transfer to AD (TTC 881/883). This will place the record in an 'Awaiting Initial Join' status. There is no other method available to place a record in an 'Awaiting Initial Join' status other than the Transfer entry reported by the parent Reserve unit.
2. The gaining AD unit **must** report the appropriate INIT JOIN statement (TTC 022).

30201. ENTRY INTO THE RESERVES

1. Previously, Reserve enlisted and officer, prior service, PLC lawyer, Naval Academy, NROTC, and Retiree accessions have been accomplished utilizing the mainframe under a CICS option. This functionality has now moved from the mainframe to UD/MIPS. All former ECCO accessions will now be input and processed at the Reserve unit level, then sent to a collection server. MISSO 16/17 will retrieve the records from the collection server, create a diary, certify it, and make the courier.

a. Under the Unit Diary module, there will be an Accession Management screen. This screen is RUC-controlled. Based on the user's RUC, the options for input are Reserve Accession, HQMC Accession, and Retiree Accession. These accession types are NOT part of the Student Management Module.

A Unit Function non-critical table will control access to the different Accession input screens. Only the following units can access the Accession Management Module:

(1) RUCs 88801-5, 88888, and all Reserve RUCs may access the USMCR Officer/Enlisted Accession view

(2) RUCs 89999, 34022, and 32092 may access the Headquarters Officer/Enlisted Accession view

(3) RUC 54800 may access the Headquarters Officer/Enlisted Retiree Accession view

c. Units using the ECCO process will be identified by MISSO 16/17 to the collection server for implementation. **CONAD RUC's cannot input an ECCO on UD/MIPS. ECCO's can only be input by the subordinate Reserve RUC.** Operating procedures will be distributed at that time. Units not notified by MISSO 16/17 will continue to utilize the mainframe ECCO process until otherwise noted. For those units identified by MISSO 16/17 to use the UD/MIPS process, a Computer-Based Training package has been developed; it may be accessed from both the MISSA and MISSO 16/17 websites.

d. The ODSE data is used instead of the MCTFS Master File, to populate existing MCTFS records. When the preparer selects an accession, inputs a social security number, and hits enter, the system will check the ODSE for the input SSN. If no record is found, processing will continue. If the SSN is found, but does not meet the desired criteria, an advisory will be displayed, stating: 'SSN Found But Not In Valid Status. Contact MISSO.' For all other accessions, if the SSN is found, an advisory will be displayed stating the record already exists on MCTFS, and will ask the user if they wish to continue. If the user selects 'Y' (equals Yes), data will be pulled from the ODSE and populate the input screen data fields. If 'N' (equals No), the user will be returned to the previous menu.

e. An Accession Validation Report has been created and added to the Reports Menu toolbar to enable review and audit of input accessions.

# MCTFSPRIUM 23JUN04

## Section 3: CONTRACTS

### 30300. INTRODUCTION

1. The different categories of this Section are those items that pertain to Contracts, such as Reenlistments, Expiration of Current Contract (ECC), Extension of Enlistment, etc. Detailed reporting information is indicated in the following paragraphs.

2. Diary input authority is indicated for HQ, Reg or Res. Type Transaction Code (TTC) statements for this section are shown below with the input authority and corrections indicator immediately following the statement.

### 30301. REENLISTMENT INTO THE ACTIVE DUTY COMPONENT (TTC 004)

Table 3-3 contains additional information that may be required to update the Marine's computer record. Ensure that all necessary information is reported in addition to the appropriate reenlistment statement.

1. This paragraph pertains to Active Duty reenlistments. It also applies to Marines on the Active Reserve (AR) program or the Extended Active Duty (EAD) program (component codes 'B1', 'B2', 'B3', 'B4' or 'CD') who have been authorized to reenlist into the regular Marine Corps.

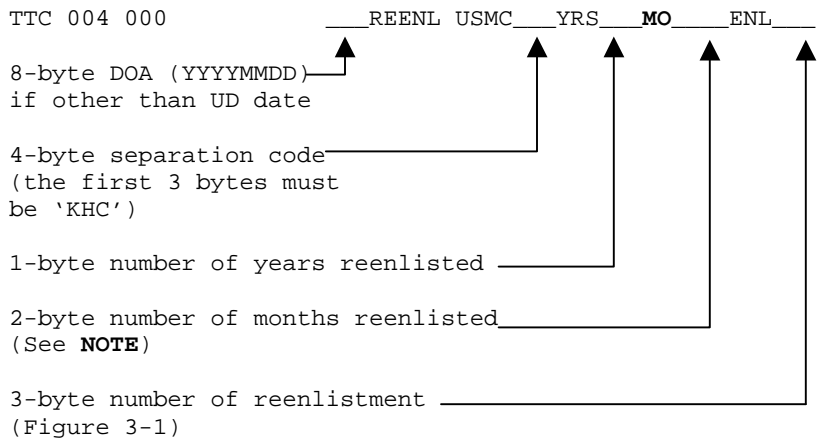

2. When TTC 004 000 (REENL USMC\_\_YRS\_\_ENL\_\_) is reported, and the Marine's component code is equal to 'B1'-'B4', 'C7', 'CF', 'CE', 'C4', 'CC', 'K1'-'K3', 'KB', or 'KM' and the RUC reporting the transaction is not equal to 548XX, the transaction will fail with the following error message: "REENLISTMENT NOT PROCESSED. IF MBR AUGMENTING, CONTACT MISSO FOR ASSISTANCE." The reporting unit **must** contact their MISSO for determination of reporting TTC 004 000.

3. When a Marine re-enlists during a period of leave, the leave must be reported as two separate periods. The first period ends at 2359 on the date prior to the date of reenlistment, and the second period begins at 0001 on the date of reenlistment. Since the first day of the second leave period will be considered by the system as a day of duty and not chargeable as leave, the reporting unit **must** submit a NAVMC 11116 to the local DO to ensure that the Marine is charged for the day of leave.

4. Report a leave balance being carried forward (if applicable) per Chapter 7, Section 1. The entry to report leave in settlement data must be preceded with an action date **the day before** the reenlistment and must be reported on the next UD submitted after the UD that reported the reenlistment.

5. Report the following statement for reenlistment into an AD component:

**NOTE:** Per MARADMIN 436-00, reenlistments are reportable in both years and months for the Selective Reenlistment Bonus Program (SRBP). Reportable number of years will be one through six, and number of months will be '00' through '11'. The number of months reenlisted will not be valid for Reserve Marines and reporting the number of months equal to '00's will be required. Marines not authorized reenlistment for the SRB in additional months, report number of months as '00's.

6. Once the reenlistment posts, report a new EAS and ECC to match the actual end of the reenlistment contract. See paragraph 30312 for reporting Length of Enlistment (TTC 155).

#### 30302. REENLISTMENT INTO THE RESERVE COMPONENT (TTC 004)

1. This paragraph applies to both those Marines on AD who have completed their required service and have been authorized to reenlist into the Marine Corps Reserve (SMCR or IRR) and reserve component reenlistments.

2. The WILL REENTER statement, and instructions on separations which are not for immediate reentry, is referred to later in this chapter.

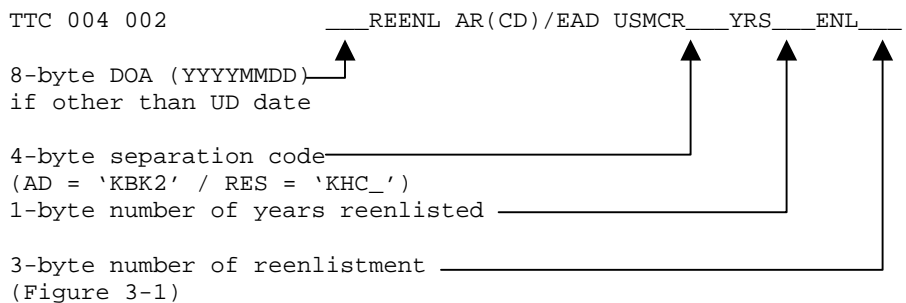

3. Report the following statement for reenlistment of an AD or reserve Marine (to include Non-Career Designated AR Marine) who will reenlist into the reserve component:

4. To report the reenlistment for an Extended Active Duty (EAD) Recruiter, and Career Designated AR Marine (component code must equal 'B1', 'B2', 'B3', 'B4' or 'CD') who is reenlisting to continue in that respective program.

a. For Active Duty reporting, the separation code must equal 'KBK2'. This entry can be reported up to 90 days in advance of the AD Marine's ECC, and will update the reserve ECC and reenlistment length to reflect the new reserve commitment. When the AD drop entry (TTC 378) is reported with an SPD code equal to 'KBK2', an automatic join entry to the IRR will be created.

b. For Reserve reporting, the first 3-bytes of the separation code must equal 'KHC' for a Reserve Marine re-enlisting into the reserve component. This entry will update the current source of entry, EAS, ECC, reserve ECC, current assignment length, active service length and date of enlistment or acceptance. Report as follows:

**NOTE:** Report an advance leave balance being carried forward, if applicable, per Chapter 7, Section 1.

# MCTFSPRIUM 23JUN04

5. Report the following statement for reenlistment of a reserve Marine, who is reenlisting for 6 years to qualify for the Reserve Montgomery GI Bill:

TTC 004 003      REENL MGIB-R USMCR YRS 6 ENL

8-byte DOA (YYYYMMDD)  
if other than UD date

4-byte separation code  
(the first 3-bytes 'KHC')

6-year reenlistment required

3-byte number of reenlistment  
(Figure 3-1)

**NOTE 1:** The source of entry code must be reported with the reenlistment statement refer to Chapter 4, Section 8. Report an advance leave balance being carried forward, if applicable, per Chapter 7, Section 1.

**NOTE 2:** Reserve component code must equal 'B5', 'K4', 'K8', 'K9' 'KA' or 'KF' and the Reserve MGIB Eligibility code must equal 'C'.

6. The applicable PEF code will be reported when a reenlistment bonus is authorized per the APSM. Report only the additional information required to update the Marine's record. (Refer to Chapter 4 for PEF code and Chapter 9 for BONUS).

30303. VOLUNTARY EXTENSION OF ENLISTMENT (TTC 116/118)

1. The date of execution of extension of enlistment is the date the agreement is subscribed and sworn to. The entry must report the date of execution, the number of months for which the enlistment is extended, and the number of the extension.

a. To determine the number of the extension, do not count any prior agreements that were executed but canceled prior to their becoming effective. The first extension is reported as 01, the second as 02, and so forth. Refer to the references and other applicable directives for regulations concerning the number of extensions allowed.

b. Refer to the references to determine allowable length (number of months) of extension. The length of the extension is always expressed in months in the UD statement. A single extension cannot be for more than 23 months. The length of the extension is converted to months for reporting purposes. For **EXAMPLE:** 3 months is expressed as 03; a 1-year extension is expressed as 12. The Marine's EAS/ECC (Reserve ECC for SMCR, IRR personnel) will be automatically adjusted in the MCTFS and will appear on the RU's DFR. **Do not report** a new EAS/ECC or Reserve ECC with a separate UD statement. For AR Marines report Reserve ECC prior to reporting the extension. Report as follows:

TTC 116 000      EXTENL MO EXT

2-byte number of months

2-byte number of extensions

**NOTE:** The reporting and posting of the agreement to extend an enlistment will also allow for a 30 to 60-day grace period after expiration of ECC. (Report 01, 02, 03, etc. for number of extensions).

2. Extension of Enlistment Agreement Becomes Effective or is Cancelled.

a. Unless cancelled, an extension of enlistment agreement becomes effective the day after the date of expiration of the current enlistment and/or extension. Time lost on the

# MCTFSPRIUM 23JUN04

current enlistment or extension **must** be made good before a new extension becomes effective.

b. Only report an AR Marine's Reserve ECC when an extension is not executed.

c. When the first extension of an enlistment becomes effective, leave settlement information will be reported and periods of leave that bridge the enlistment and the extension will be reported as two periods. Reporting a type of on-leave statement terminates the first leave period on the last day of the enlistment being extended. These types of on-leave statements must **never** be reported after the statement effecting the extension. The second leave period will begin on the 1st day of the first extension and be reported when the leave expires. Since the first day of the second leave period will be considered by the system as a day of duty and not chargeable as leave, the reporting unit must submit a NAVMC 11116 to the local DO to ensure that the Marine is charged for the day of leave. Reporting requirements for leave settlement information are shown in Chapter 7, Table 7-1. Leave settlement information will not be reported when a second or subsequent extension of enlistment becomes effective as no entitlement exists for compensation for unused leave. The Marine's leave account continues without interruption when a second or subsequent extension becomes effective.

d. If an agreement is cancelled prior to becoming effective, report the cancellation. Refer to the references for reasons where an agreement can be cancelled. Report as follows:

TTC 118 001                      EXTENL CANC\_\_\_\_EXT|  
 2-byte number of extension      ↑

**NOTE:** The latest extension must be cancelled PRIOR to any previous extensions being cancelled; that is, EXT 3 must be cancelled before EXT 2.

3. The following statement is used to report an extension of enlistment to qualify for the MGIB-R:

TTC 116 001                      MGIB-R EXTENL\_\_\_\_MO\_\_\_\_EXT|  
 2-byte number of months      ↑      ↑  
 2-byte number of extension      ↑

30304. INVOLUNTARY EXT DUE TO WAR OR A DECLARED NATIONAL EMERGENCY (TTC 119)

1. The below transactions are applicable to those Marines' whose contracts are involuntarily extended during a **war** or declared national emergency. The MCTFS EXTENSION OF ENLISTMENT 116 REMARK is the primary source to track all extensions whether voluntary or involuntary. **For enlisted personnel within 90 days of their contract expiring, report as follows:**

TTC 119 000                      INVOL EXTENL\_\_\_\_MO|HIST: AUTH\_\_\_\_\_|  
 Enter number of months      ↑      ↑  
 Authority (MARADMIN or STOP LOSS order)      ↑

## MCTFSPRIUM 23JUN04

**Note:** This transaction will build a MCTFS EXTENSION OF ENLISTMENT 116 REMARK, post a '9' to the MCTFS record Involuntary Extension Flag, and add the number of months reported to the EAS/ECC, and RES ECC.

### 2. For officers within 90 days of an established EAS, report as follows:

TTC 119 001 INVOL EXTENL INDEF MO|

**Note:** Sequence 001 is only reportable on Officers and will fail if reported on enlisted records. The transaction will build a MCTFS EXTENSION OF ENLISTMENT 116 REMARK for officer records.

3. To cancel an involuntary extension when a stop loss order is lifted report the below transaction.

TTC 119 002 INVOL EXTENL CANCEL|

**Note 1:** If the prior ECC is expired and the member will not be separated immediately, the new EAS/ECC or RES ECC must be reported to maintain the members pay account.

**Note 2:** The transaction will post a 'zero' to the MCTFS Involuntary Extension Flag, update and close the MCTFS EXTENSION OF ENLISTMENT 116 REMARK (built with TTC 119 sequence 000 or 001), post the prior RES ECC to the RES ECC and prior EAS/ECC to the EAS/ECC.

4. TTC's 004 (all sequences), 048, 116 (all sequences), and 054, will reset the MCTFS Involuntary Extension Flag from a '9' to 'zero'.

5. If an activated Reservist is involuntarily extended on active duty and the member has time remaining on his reserve contract to fulfill the remainder of active duty, report EAS/ECC adjustment only. If the member does not have the remaining time on the reserve contract and there is a Stop/Loss order in effect, report EAS/ECC adjustment and then involuntary extension as shown above. The involuntary extension will update Reserve ECC only.

30305. INCURRED OBLIGATED SERVICE CODE AND INCURRED OBLIGATED SERVICE DATE (TTC 033)

1. All Marines can incur additional obligated service by receiving financial aid or attending certain MOS-producing schools. Previously, there was no automated process to check a Marine's record when a request for retirement or resignation was submitted to ensure any incurred obligated time requirement had been fulfilled. Report as follows:

TTC 033 000 INCUR OBLIG SERV CD \_\_\_\_\_|

1-byte code  
(must be A, B, C,  
D, F, or G)

TTC 033 001 INCUR OBLIG SERV\_\_\_\_INCUR OBLIG DATE CCYYMMDD|

1-byte code  
(E, H, I, J, K,  
L, M, N, P, or R)

8-byte date  
(must be future-dated)

a. Active Duty RUCs 45220, 06080 and 06115, and Higher Headquarters, will be the only RUCs authorized to report the above sequences. For Incurred-Obligated-Service-Code 'P', reporting is limited to RUC 54893 only; for Incurred-Obligated-Service-Code 'R', reporting is limited to RUC 54824 only.

## MCTFSPRIUM 23JUN04

b. Incurred Obligated Service Codes are as follows:

**Code A:** 96-month obligation for officers with MOS of 7507, 7521, or 7541

**Code B:** 72-month obligation for officers with MOS of 7524, 7531, 7556, 7558, 7560, 7561, 7567, 7568, or 7582

**Code C:** 102-month obligation for officers who utilized Financial Assistance with MOS of 7507, 7521, or 7541

**Code D:** 78-month obligation for officers who utilized Financial Assistance with MOS of 7524, 7531, 7556, 7558, 7560, 7561, 7567, 7568, or 7582

**Code E:** 42, 48, 60 or 66-month obligation for officers with MOS of 4401

**Code F:** Aviation Continuation Pay. 192-month obligation from Date Accepted First Commission; grade equal to Captain or Major, MOS of 75XX

**Code G:** Aviation Continuation Pay. 264-month obligation from Date Accepted First Commission; grade equal to Lieutenant Colonel, MOS of 75XX

**Code H:** Aviation Continuation Pay. 36-month obligation for Captains, Majors, or Lieutenant Colonels with MOS of 75XX

**Code I:** Law School Education Debt Subsidy. 36-month obligation for officers with an MOS of 4401

**Code J:** Funded education. 36-month obligation

**Code K:** Funded education. 48-month obligation

**Code L:** Funded education. 60-month obligation

**Code M:** Fellowship/scholarship. 36-month obligation

**Code N:** Fellowship/scholarship. 72-month obligation

**Code P:** Marine Corps Tuition Assistance Program for members of the Platoon Leaders Class Program. 60-month obligation for any MOS, beginning from the date the officer reports to TBS for duty under instruction (reporting of this code is restricted to RUC 54893 only)

**Code R.** Law School Debt Subsidy Obligation. 36-month obligation for officers with an MOS of 4402 (reporting of this code is restricted to RUC 54824 only)

c. Higher Headquarters can report 033 002, used to correct an Incurred Obligated Service Code or Date if erroneous:

033 002

INCUR OBLIG SERV NONE|

d. For codes 'A' through 'D', the applicable number of months from the above list will be added to the Pilot Designation Effective Date and the result of the computation will post to the Incurred Obligated Service Date and Expiration of Active Service (EAS) Date. If the member is a Reserve on Active Duty, the applicable number of months will be added to the Expiration of Current Contract (ECC) Date.

## MCTFSPRIUM 23JUN04

e. For Codes 'F' or 'G', the applicable number of months from the above list will be added to the Date Accepted First Commission and the result of the computation will post to the Incurred Obligated Service Date and EAS. If the member is a Reserve on Active Duty, the applicable number of months will be added to the ECC.

f. The Incurred Obligated Service Code and Incurred Obligated Service Date will be displayed on the ACIP, TOUR, and TBTR screens within MCTFS. Within MOL, Incurred Obligated Service Code and Incurred Obligated Service Date are displayed on the BTR under Unit Training.

2. Other areas affected by this element are: Chapter 4, Section 5, RESERVIST INFORMATION; Chapter 5, Section 6, OFFICER DATES; Chapter 10, Section 2, PRE-RETIREMENT; and Chapter 12, Table 12-2, BTR AUDIT ITEMS.

### 30306. EXPIRATION OF ACTIVE SERVICE (EAS) (TTC 077/081)

1. The EAS is the date active service terminates. An expired EAS is never valid for Marines in a full-duty pay status except as shown below, and must be immediately updated.

#### 2. EAS-Voluntary.

a. For Regular enlisted personnel, the EAS is the date of expiration of current enlistment, **voluntary** extension of enlistment, COFGL, or COFGM for Marines voluntarily retained on AD. Regular officers have no EAS. An EAS of COFGL will be reported for Marines **voluntarily** retained beyond their EAS due to legal proceedings. It does not apply to Marines awaiting trial by court martial when their EAS expires. In those instances, report an EAS COFGI (involuntary retention).

b. Only CMC can report an EAS CofG on members who have requested retirement or resignation.

c. For Reserve officers and enlisted, the EAS is the date of expiration of the AD tour.

d. For inductees, the EAS is the expiration of period of AD service.

e. For retired personnel on AD, the EAS is the expiration of AD.

3. EAS-Involuntary for active duty Marines. For personnel involuntarily extended/retained on AD, if the involuntary extension is in the event of war or a declared national emergency, a message from CMC will direct the EAS date to be established COFGI.

4. EAS-Involuntary for mobilized Marines. For mobilized reservists, upon receipt of approval authority for an extension of original activation orders, units must report EAS (TTC 077 000) and ECC (TTC 122 000) with 8-byte numeric dates.

5. The EAS/ECC for reserve officers on AD is controlled and reported at the HQMC level, with one exception: Reserve officers who are on Active Duty Special Work (ADSW). Refer to paragraph 30307 for reporting. EAS's normally fall on the 1<sup>st</sup> or 15<sup>th</sup> of the month. All other reporting of the EAS/ECC for AR officers will be completed by CMC (RAM).

a. The EAS/ECC being reported cannot be greater than the end of the current fiscal year.

b. The CMC (MRRO-5) will report the EAS/ECC for those Marines assigned component code C1 when they initially report for AD to attend The Basic School (TBS). If a component code C1 Marine requires the reestablishment, change, or correction of an EAS/ECC, the new EAS/ECC will be reported by the CMC (MMOA).

## MCTFSPRIUM 23JUN04

6. Table 3-4, contains instructions for the establishment and change of the EAS date.

7. **Do not report** an EAS COFG when a Marine is in a non-pay status and is **retained beyond EAS**. **EXAMPLE:** UA, IHCA, SICK-MISCONDUCT, confined serving sentence or awaiting trial by courts-martial. If and when a Marine is returned to a full duty status, the EAS will automatically be updated when a new ECC is reported. If the Marine is being retained beyond EAS in a non-pay status and the duty status code resident in MCTFS is not compatible with the appropriate non-pay status, you **must** research and report the appropriate DU STATUS code, refer to Chapter 4, Section 4. Report as follows:

TTC 077 000 EAS\_\_\_\_\_|

8-byte ED (YYYYMMDD) \_\_\_\_\_|

and

TTC 081 000 EAS COFG\_\_\_\_\_|

Enter the appropriate  
Code (i.e. I, M or L) \_\_\_\_\_|

8. An EAS COFG cannot be changed to a subsequent EAS COFG. If the Marine's status changes (for example from involuntary to medical), the following must be done:

- a. Report an EAS 60 days from today's date.
- b. After the new EAS processes, report a new Alpha EAS.

9. DO NOT report an EAS COFG earlier than 90 days prior to the current ECC. An EAS COFG may be reported on an AD officer with an ECC other than zeroes. When this entry is reported, the officer's EAS in MCTFS will be reflected as '9's.

10. When time lost is reported, the new EAS will be automatically adjusted by the MCTFS and there is no need to report. The EAS date as adjusted for time lost will appear on the DFR. This constitutes authority for correction of Service Records.

11. When the Marine returns to a full duty status from a period of absence determined to be time lost and the EAS has expired, a new EAS will not be reported when the Unit Commander returns the Marine to a full-duty status. The new EAS will be computer-generated from the reported ECC date.

- a. AFADBD and EOS must be updated.
- b. Computer processing of the return to full-duty statement will automatically delete a duty status of '9' and generate duty status '1'.
- c. Time lost will be adjusted. **DO NOT** report the time lost in conjunction with a return to full duty statement. This will result in a duplicate adjustment of the PEBD and EAS.

# MCTFSPRIUM 23JUN04

30307. EXPIRATION OF CURRENT CONTRACT (ECC) (TTC 122/081)

1. The ECC is the date the current contract terminates as shown on the Marine's current DD Form 4. Periods of time lost will automatically extend the ECC by the number of days lost. An expired ECC will suspend computation of leave, pay, allowances, and terminate payment of allotments. ECC logic will automatically stop Direct Deposit two paydays (30 days) before the ECC date for first term Marines. Report as follows:

TTC 122 000            ECC \_\_\_\_\_ | (Active Duty)

8-byte ED (YYYYMMDD)    \_\_\_\_\_ ↑

or

TTC 122 002            RESERVE ECC \_\_\_\_\_ |

8-byte ED (YYYYMMDD)    \_\_\_\_\_ ↑

or

TTC 081 001            RESERVE ECC COFG \_\_\_\_\_ |

Enter the appropriate  
1-byte code ('I', 'M', or 'L')    \_\_\_\_\_ ↑

a. Regular enlisted. Voluntary extensions of enlistment will adjust the ECC only after the extension is effected. The acceptance of a UD statement reporting the execution of an agreement to extend, will flag the record to allow a 30 to 60 day grace period after the expiration of the ECC, prior to suspension of the record. Regular officers will not have an ECC until request for resignation or retirement is approved.

b. Reserve enlisted. If on AD orders, the EAS/ECC will be equal to the orders termination date unless the member is on the AR program, and has been career designated. Upon receipt of orders extending the EAS report the following statements (**Except** when an extension is **pending** on career designated AR Marines):

TTC 077 000            EAS \_\_\_\_\_ |

and

TTC 122 000            ECC \_\_\_\_\_ |

8-byte ED (YYYYMMDD)    \_\_\_\_\_ ↑

c. While on AD, RESERVE ECC will be reported by the AD RUs. The RESERVE ECC will reflect the ending date of the DD Form 4 for enlisted Marines, and '00000000' for officers.

d. The ECC will not be changed for personnel involuntarily extended on AD for an indefinite (COFGI) period.

e. For inductees, ECC is the date of expiration of period of AD.

f. For retired and FMCR personnel on AD, ECC is the date of expiration of period of AD.

g. If a mobilized Member has an EAS/ECC flag (1), the member has an Active Duty Extension pending that should become effected when PUREX executes (unless an attempt to update ECC has been reported and failed). If the Member does not have an EAS/ECC flag (1), but still has an active extension pending, the extension will not effect. The extension should be cancelled and EAS/ECC updated accordingly. If a Reservist is not to be dropped from Active Duty, action must be taken to update the EAS/ECCs to keep the Pay Status open (D601 = 00000) and POE code Direct Deposit (D603 = 12011). If not, after U&E executes the Pay Status will go to 90000 and Direct Deposit to accrue all central 00001 and Member will not receive a payment.

## MCTFSPRIUM 23JUN04

30308. EXPIRED ECC

1. When a Marine returns to a full-duty status from a period of absence determined to be time lost and **the ECC has expired**, the below action is required. **An action date must always be reported with the return to full duty status.** The action date is the date a CO assigns the Marine to perform useful and productive duties on a full time basis to make good for time lost, as long as such duties are not inconsistent with the Marine's grade and years of service. In determining a new ECC and PEBD, the entire period of absence must be added to the old ECC and PEBD. Instructions for computing the new ECC and PEBD are published in DODFMR and the DFAS APSM. (For Additional Information to be Reported (ECC, EOS, and EAS), refer to Tables 3-1/ 5-2/ 5-3/ 5-4). For periods of UA and TIME LOST refer to Chapter 7.

a. For computation purposes, enlistments/inductions prior to 1 October 1979, date of initial entry is the PEBD. Enlistments/inductions on or after 1 October 1979 and prior to 1 June 1984, date of initial entry is the AFADBD.

b. Marines initially enlisted/appointed on or after 1 June 1984 and prior to 1 January 1985, the EOS is computed from the PEBD .

c. For Marines initially enlisting/appointed on or after 1 January 1985, the EOS is computed from the Date of Original Entry Armed Forces (DEAF).

d. Officers appointed after completion of either a service academy or an ROTC Scholarship Program incur an 8-year EOS computed from the AFC date without Regard to prior service.

2. The following Computer Generated Advisory Messages are possible:

a. **MR IS IN SUSPENSE PAY STATUS AT CENTRAL.** This message is followed by the statement, "REENLISTMENT, SEPARATION, LOST TIME, EXTN, COFG OR ECC ENTRY REQD." This indicates that the Marine's ECC has expired in MCTFS. Usually, the RU is late in reporting one of the statements listed above. If it is determined that only the ECC is wrong, assistance must be requested from the MISSO since the RU cannot report a new ECC once it has expired. If the ECC has expired while confined serving sentence or awaiting trial by court-martial do not report a new ECC, instead report an appropriate DUTY STATUS CODE.

b. **ECC EXPIRED YYYYMMDD (REPORTED BY MISSO-17 ONLY).** This message will appear on the DFR followed by the statement "REENLISTMENT, SEPARATION, LOST TIME, EXTENSION, COFG, OR ECC ENTRY IS REQUIRED PER MCTFSPRIM." This statement will appear after each file maintenance cycle until a correct ECC has been reported. This condition can exist when a unit has been delinquent in reporting time lost, reenlistments, extensions of enlistment, etc., or when these entries have failed and have not yet been corrected. An appropriate AS OF entry may be required to ensure that all data elements, not just ECC, are updated as appropriate. The following is provided:

(1) For an enlisted reservist while on AD, RESERVE ECC will be reported by the AD RUs.

(2) The ECC will reflect the ending date of the DD Form 4 for enlisted Marines and '00000000' for officers.

(3) For inductees, ECC is the expiration of period of AD.

(4) For retired and FMCR personnel on AD, ECC is the date of expiration of period of AD.

(5) The ECC will not be changed for personnel involuntarily extended on AD for an

## MCTFSPRIUM 23JUN04

indefinite period.

(6) The servicing MISSO reports: Changes to ECC once the ECC has expired, ECC PEND STAT, ECC PEND STAT DELETE, and WILL REENTER.

30309. EAS/ECC FOR RESERVE OFFICERS (TTC 077/122)

Reporting units will not report the EAS/ECC for reserve officers on the UD. These data elements are controlled by CMC and all other changes or corrections will be entered at that level or by the MISSO. Officer EASs normally fall on the 1st or 15th of the month. The following guidelines will be utilized for reporting the EAS/ECC into MCTFS for reserve officers on AD:

1. The EAS/ECC for AR officers will be reported by CMC (RAM).
2. The EAS/ECC for Reserve officers on Active Duty Special Work (ADSW) will be reported by the appropriate active duty unit. **Both the EAS and the ECC are to be reported as the same date.** If both entries are reported on the same UD, action date the EAS one day prior to the ECC. If all of the following conditions are not met, the entry(ies) will fail, and the unit must contact the CMC(RA).
  - a. These officers must have a component code of 'C7', 'CC', 'CF', or 'K3'.
  - b. The record must contain a valid Current Active Duty Began Date (CADBD).
  - c. The reported EAS/ECC must be greater than the CADBD plus 30 days.
  - d. The reported EAS/ECC must **not** be greater than the CADBD plus 179 days.
  - e. The EAS/ECC reported cannot be greater than the end of the current fiscal year.
3. The CMC (MRRO-5) will report the EAS/ECC for those Marines assigned component code 'C1' when they initially report for AD to attend TBS. If component code 'C1' requires a reestablishment, change, or correction of an EAS/ECC, the new EAS/ECC will be reported by the CMC (MMOA).

30310. BASIC PAY ADJUSTMENT, RETAINED PAST EAS WHILE DEPLOYED ABOARD NAVAL VESSEL (TTC 285/286)

1. When the EAS date expires while a Marine is serving on a naval vessel in foreign waters, the Marine may be retained beyond normal EAS for the COFG until the vessel returns to CONUS. Under current provisions of law, if the Senior Officer Present Afloat (SOPA) determines it is "service essential to the public interest", he may authorize the involuntary retention of enlisted Marines at sea beyond their EAS until the vessel returns to CONUS. Enlisted Marines involuntarily retained under this authority must be discharged not later than 30 days after arrival in CONUS and, except in time of war, are entitled to an increase in basic pay of 25 percent for the period in which they are involuntarily retained. The CMC (MM) will be notified as soon as it is determined that the involuntary retention will be required.
2. There are no similar provisions in law that authorize the involuntary retention of officers beyond their normal EAS. Accordingly, all officers must be returned to CONUS in time to permit processing and release from AD at their EAS. Operational circumstances may necessitate deployments aboard ship to be extended. In the absence of the foregoing declaration by the SOPA, all Marines deployed aboard ship, who are approaching their EAS, will be transferred to CONUS in the same manner that Navy personnel are transferred while at sea. When a Marine is retained beyond EAS and is entitled to the 25 percent increase in basic pay, use the following statement:

# MCTFSPRIUM 23JUN04

TTC 285 000            STRT BASIC PAY 25 PERCENT INC ED \_\_\_\_\_ | HIST: \_\_\_\_\_ |

8-byte ED (YYYYMMDD) of increase \_\_\_\_\_

Authority for increased pay \_\_\_\_\_

3. Entitlement to the 25 percent increase in basic pay may be terminated by reason of transfer to a hospital or not having been discharged within 30 days after return to CONUS. When entitlement is terminated prior to discharge, use the following statement to report the termination:

TTC 286 000            TERM BASIC PAY 25 PERCENT INC ED \_\_\_\_\_ |

8-byte ED (YYYYMMDD) \_\_\_\_\_

30311. WILL REENTER (TTC 123)

In order to report a WILL REENTER statement, a **request for reenlistment** for an enlisted Marine, or a request for augmentation or renewal of a reserve contract for an officer **must have been submitted**. The acceptance of this entry into the system will flag the record and allow for a 30 day grace period, after expiration of the ECC, before accrual of pay and allowances, leave, Direct Deposit, and allotments are stopped. When a Marine's request for reenlistment, augmentation, or renewal of contract is disapproved, or the Marine fails to reenlist, augment, or renew the contract, **it is essential** that the separation be reported correctly and timely to terminate the MMPA. **Failure to do so will result in overpayments made via Electronic Fund Transfer/Direct Deposit (EFT/DD) or allotments being paid after the date of separation.** The WILL REENTER statement will be reported **no earlier than 90 days**, but **no later than 15 days**, prior to ECC. Report as follows:

TTC 123 001            WILL REENTER |

**NOTE:** The reporting and posting of an agreement to extend enlistment (TTC 116 000 EXTENL) will also provide for the 30 day grace period described above. **Do not** report the WILL REENTER entry for extensions of enlistment unless approval of the agreement to extend is **not** received within 15 days of the Marine's ECC. Additionally, the WILL REENTER entry should not be used when an agreement to extend enlistment has been reported and the extension has not yet become effective. If WILL REENTER is reported when EXTENL is pending (not yet effective), the entry will fail.

30312. ECC/EAS FLAG

The flag is automatically generated upon processing an extension of enlistment, retirement, etc. The ECC/EAS flag appears in the LES when a status change occurs.

30313. LENGTH OF ENLISTMENT (TTC 155)

1. The length of enlistment is the length of time, **expressed in years**, for which a Marine enlists, is inducted, or re-enlists. This information is obtained from the enlistment contract or the record of induction.

## MCTFSPRIUM 23JUN04

2. The length of enlistment is automatically entered during the accession process and normally is not subject to change. Upon reenlistment, this information is reported as a part of the reenlistment entry. In the event that the length of enlistment in the MCTFS record is erroneous, use the following statement to report the correct information:

TTC 155 000 LENGTH ENL\_\_\_YRS |

```
1-byte number of years;
```

(for example, 2, 3, 4, or 5)

**NOTE:** TTC 155 000 and 155 001 may be reported on the same diary utilizing an action date with years 1 day prior to months.

3. When reported incorrectly, or to correct the record after posting, the TTC 155 000 length of enlistment in years (above) must be corrected prior to reporting the following for Length of Enlistment (months):

TTC 155 001 LENGTH ENL1 MONTHS |

2-byte number of months enlisted

NOTE: TTC 155 000 and 155 001 may be reported on the same diary utilizing an action date with years 1 day prior to months.

4. For Reserve Marines the length of enlistment for prior service is the length of time, expressed in years, for which a Marine enlists or reenlists. This information is obtained from the enlistment contract. Upon reenlistment, this information is automatically updated as part of the reenlistment entry.

5. The length of enlistment for nonprior service Reserve Marines, however, will reflect the member's SMCR IDT obligation vice the actual length of the enlistment contract as determined by the assignment of component code. The information below will be used to determine the correct length of enlistment:

COMP CODE	LENGTH OF ENLISTMENT
-----------	----------------------

K8 3 YRS

K9 4 YRS

B5 5 YRS

K4 6 YRS

If the number of previous enlistment's in the same component (USMC or USMCR) is	and the Marine is reenlisting in the same component, then report the following abbreviation
one previous enlistment (see <b>NOTE 2</b> )	2 <sup>nd</sup>
two previous enlistments	3 <sup>rd</sup>
three previous enlistments	4 <sup>th</sup>
four previous enlistments	5 <sup>th</sup>
five previous enlistments	6 <sup>th</sup>
six previous enlistments	7 <sup>th</sup>
seven previous enlistments	8 <sup>th</sup>
eight previous enlistment's (see <b>NOTE 1</b> )	9 <sup>th</sup>

**NOTE 1:** When a Marine has eight or more previous enlistments, always report 9TH as the number of enlistment.

**NOTE 2:** When a Reservist enlists in the USMC for the first time, report 2<sup>nd</sup> as the number enlistment. When an AD Marine enlists in the USMCR for the first time report 2<sup>nd</sup> as the number of enlistment

FIGURE 3-3--REENLISTMENT NUMBER ABBREVIATIONS.

TABLE 3-1--ADDITIONAL INFORMATION TO BE REPORTED IN REENLISTMENT REMARKS

R U L E	A	B	C	D
	Reenlist remarks will include	and this information	then use the statement shown/refer to paragraph/ figure indicated for detailed instructions	TTC
1	billet MOS	required only if the current information has changed	BILMOS_____   4-digit billet MOS____   Refer to Chapter 5	177 000
2	strength category		STRCAT_____ EFF DATE_____   1-digit code_____   8-digit ED (YYYYMMDD)____   Refer to Chapter 6	112 000
3	home of record	required only if it is an authorized change of the HOR previously listed on the DD Form 4 and/or Record of Induction	HOME REC_____   5-digit county/ state code_____   Refer to Chapter 5	174 000
4	advance leave balance carried forward, if applicable		Refer to Chapter 7	

TABLE 3-2--ESTABLISHING AND CHANGING ECC			
R U L E	A	B	C
	If the Marine	because of	report ECC change when
1	has a change of status	temporary officer reverted to enlisted status and enlistment has not expired	reporting change of status.
		transferred to the FMCR or enlisted retired and retained on AD	
2	is involuntarily extended or retained	war or national emergency	no reporting required
		medical, legal, or higher authority hold for an indefinite period	
3	voluntarily extends		
4	cancels voluntary extension		
5	is enlisted and on Retired list or the FMCR and assigned to AD		Marine joins first unit of Regular Establishment
6	returns from a period of absence	expired ECC date	Marine is returned to a full-duty status for the purpose of making good time lost.
7	is scheduled to be separated prior to ECC (see note)		the separation date is known, but not later than the drop entry.

**NOTE:** Rule 7, above, does not apply for retirements, transfers to the FMCR, or separation on the last workday prior to ECC.

TABLE 3-3--LENGTH OF ACTIVE SERVICE DETERMINATION

R U L E	A	B	C	D
	If the Marine is a/an	and is serving	the length of AD is	and
1	Reserve Officer	on initial tour of obligates AD	the number of months of AD	no reporting is required (entered at accession).
2		on EAD		(NOTE 1)
3		on SWAG	the number of months of the SWAG	No reporting is required
4		on AD and extends tour of AD (not SWAG, UAD, EAD, EDR, or indefinite AD)	the number of months for which extended	Report when extension of tour is effective
5	Retired officer	on AD	the number of months of AD	Report when joined on AD.
6	Regular enlisted	on Regular enlistment	the number of months of enlistment	No reporting is required entered at accession ( <b>NOTE 2</b> )
7		on an extension of enlistment	the number of months of extension	Report when extension enlistment is executed. (see <b>NOTE 3</b> )
8	Reserve enlisted	on IADT and ETT (6 months Training Program or Critical Skills Program)	6 months (IADT) plus length of ETT	report when assigned IADT and ETT
9		on EAD	the number of months of AD	no reporting is required (entered at accession).

TABLE 3-3 CONTINUED--LENGTH OF ACTIVE SERVICE				
R U L E	A	B	C	D
	If the Marine is a/an	and is serving	the length of AD is	and
10		on IADT/ETT and is assigned to EAD	the number of months for which extended	report when extension is effective (also report component code and the new EAS).
11	FMCR	on EAD	the number of months of AD	report when transfer to the FMCR, and retention on EAD are reported
12	inductee	on AD		no reporting is required (NOTE 4)

**NOTE 1:** If this is initial assignment to EAD, the date is entered automatically into the MCTFS. If currently serving on AD, this information will be reported at the time the EAD becomes effective.

**NOTE 2:** It is not necessary to report length of active service or length of enlistment upon immediate reenlistment.

**NOTE 3:** This reporting requirement is included in the reporting of extension of enlistment remark.

**NOTE 4:** Although certain Regular and career Reserve officers are obligated to serve a definite period of AD due to their attendance at certain special-type schools, their length of active service will still be reported as '00' (zeros).

TABLE 3-4--ESTABLISHING AND CHANGING EAS			
R U L E	A	B	C
	If the Marine	because of	report the EAS change when
1	has a change of status	temporary officer reverted to enlisted status whose enlistment did not expire while serving as an officer;	reporting change of status.
		enlisted transferred to the FMCR and retained on AD	
2		being declared a deserter	reporting the desertion by UD statement. <b>(NOTE)</b>
3	is an enlisted reservist retained on AD	a modification to current AD orders	Marine accepts the modification to current orders.
4	is <u>involuntarily</u> extended/retained or voluntarily retained on active duty beyond normal EAS	extension declared in event of war/national emergency	directed by the CMC (MMEA-5).
5		retention for reason other than war/national emergency	retention becomes effective, but not earlier than 90 days prior to the ECC.
6	voluntarily extends		no reporting necessary (par 30303)
7	cancels voluntary extension		
8	is retired	assignment to AD by own request/consent	Marine accepts orders, establishes date of the EAS.
9	is retained beyond EAS in a non-pay status	UA, IHCA, confinement or SICK-MISCONDUCT	Do not report an EAS COFG, report the appropriate duty status.

**NOTE:** Required only when Marine has executed a voluntary extension of enlistment that has not become effective.
